FCC,

I speak for a large
group very much opposed
to lowering the standards
to allow nudity and expletives
during prime time - or even
later time!

Television Watching has become
less and less due to the
present low standards.

Thank you

R. Miller

Dear FCC,

APR 22 2013

FCC Mail Room

I am writing as a concerned mother of two young daughters. I monitor very passionately the media to which they are exposed. I do not want them to believe that it is acceptable for people to use foul language or watch TV shows with even a few seconds of nudity. It is very offensive to be surprised by profanity or nudity while watching TV. These are not the values I want to impart to my children.

Our American culture is sliding down a slippery slope. Our morality as a whole is declining. The media holds much of the blame. Children will accept as normal whatever they see on TV.

I urge you to NOT keep the status quo with the current wording of the FCC broadcast regulation. Instead, the FCC should adjust the language to ensure that broadcasters are barred from using even a single instance of profanity or a few seconds of nudity.

I plead with you to adjust your wording so that our children may be protected and America's moral culture (what is left of it) may be preserved.

Thank you for your consideration,

Dear Sirs,

This is to inform you that we are VERY concerned that you may loosen the ban on obscene language, and nudity, on television channels!

Already too many of our young people are being exploited, and exposed to the evils of the world! True, these things are "out there," BUT DO WE NEED TO BRING THEM INTO OUR HOMES??!

We are definitely AGAINST more profanity and nudity on the television channels, and should this bill pass, we intend to do away with our television set, and suspect that other people will do the same!

Dear Staff:

Stop promoting homosexuality which goes against nature. Please discourage nudity, explicit bedroom sex scenes, showing how to kill, showing people having sex after meeting someone, and disrespecting elders, nasty sarcastic children, backtalking, and living in squalor.

Please help people to educate their children with respect for boundaries, describe cause & effect, encourage education, and improving skill levels.

The wealthy seem to lack morals and boundaries. Do not show too much skin, tight pants on young women which leads to bacteria formation, odors, and lack of respect for these women.

Encourage moral standards and show young women dressed modestly with proper attire. Show heroes, lives of saints.

Tell the truth that abortion is an egregious evil & the killing of an human being. We need orphanages to raise up our unwanted children in caring places.

Stop promoting the culture of death. Get writers and stories.

Sincerely,

Agnes Bolt

Gentlemen:

I watched a video very recently which must have been at least 15-20 years old and was set in a Scandanavian or European country. It was dubbed in English. I never buy or rent R rated anything. This had no rating. It was a mystery. Anyway, I was horrified at the language, drinking, and all around lack of morals in this movie with respect to the star, who was a young teen who just lost her father. I was so shocked by it that it left me really saddened. My goodness, when a young teen is shown having sex, drinking, nudity, etc. like it was nothing, something is horribly wrong. I throw any DVD like that away that I come upon if it is not correctly marked. In other words, sadly, in other countries morality has hit the skids. When I say it encouraged immorality, I mean it big time! I actually had a hard time believing what I was seeing.

If you have to use cursing and sex to get someone to listen to you, or view you, then you don't have much to offer the world. If you have to curse to make someone laugh, you don't have much intellect.

Think of it this way. If you put all good ingredients in a recipe, most likely, the result will be good. If you put garbage in the recipe, most likely that's what the end result will produce.

Is the real-life shooting of innocents, beating and raping of innocents, violence, cursing, and encouragement of evil not enough to clue us into the fact that lack of restraints lead to death of the body and the soul? If children, and adults, impressionable and innocent, are shown this on a daily basis, and desensitized to the horror and evil and danger of it all, what do you imagine will happen? I mean I don't want cursing, the L_rd's name used in vein, low class filth, trashy behavior, immorality, nudity, shown to the public.

I don't want America's standards being lowered. Have mercy, stop this insanity. I want to be able to sit anywhere in America and not be embarrassed by the trash I see or hear.

I had cable taken out of my house because most every channel had pure, utter, vile, nasty, tasteless, trash on it. I don't want cursing or sexuality to hit me in the face. I don't want it going through the airwaves, violating our precious children, or our precious teens, or our precious young people, who are not all raised in the nurture and admonition of the L_rd, and may not come to the right conclusions about how to live in this world. It's not guns that are killing everybody-it's immorality run rampant. It's letting a kid watch a trash TV show, or an insane game like Grand Theft Auto which glorifies stealing. I
